As an employee of West Henderson, I was so impressed with the care and kindness shown to my 88 year old mother in law. After suffering a collapsed lung in October, she has been struggling to regain her health. Last week she was rushed via ambulance to West Henderson hospital in respiratory distress. The dedicated nursing, and respiratory team got her quick relief and out of distress. Last week, the physical therapy team had her up and walking for the first time in 3 months. We are thrilled to see so much recovery happening in a week under your amazing care.

Our family thanks you all for your commitment to providing quality healthcare to our community and especially to our Mom.
